

PerfectBackup Trial Account now Increased to 500MB

Published 23-10-2006

PerfectBackup have increased the size of trial accounts from 100MB to 500MB. This means you will be able to backup 1GB of data whilst you are trialing our services.

We understand the protection of your data is one of the most important investments for your business. You can experience the security and automation benefits of online backup. PerfectBackup Limited offer a fully functional, totally free of charge and without commitment evaluation of our online backup service.

You can [evaluate online data backup](#) service from PerfectBackup for 30 days before you buy. Should you wish to purchase our product at a later date we are immediately able to migrate your trial account to a paid account of the data size determined by yourself.
